1 Holding tank Exact replica of old tank

BoatWide

• Custom made tanks in Polyethylene
• Marine electronics solutions

Material

✓ High density polyethylene 10mm thick (V. strong, no odours from the contents)

✓ 10mm thick welds (Alumin/Stainless only 2.5mm)

✓ With greater quantities, options for custom roto molded tanks.

1 Holding tank

The client wanted an exact replica of the old stainless steel tank. The walls and the welds of the old tank both had holes, allowing the contents to seep through.

Dimensions:

85 litres: 500mm x 400mm x 500mm (Length x Width x Height)
(with angles and mounting tabs)
