

## Complex NMEA integration including AIS, Automatic Identification System

- Raymarine C80 Plotter – **talks to all other instruments**
- Raymarine GPS – **talks** (to plotter on seataalk bus)
- Raymarine Autopilot - **listens**
- Nasa AIS Engine - **talks**
- Nasa AIS Receiver with display - **displays**
- VHF DSC Radio - **listens**
- EPIRB - **listens**
- PC with Maxsea charting software and AIS display - **listens**
- RADAR - **listens**

The result of the finished system is a fully integrated solution of six different manufacturers products. All working and communicating efficiently, providing the boat owners with a versatile presentation of Plotter, PC, GPS and AIS information, resulting in a very happy customer.
